Fete Weekend Coming Up

Cameron's 8th annual Folk Fete will start tonight (Thursday) at 7:30 p.m. when two queens are selected to reign over the three-day festival that promises lots of fun, music, food, dancing and a lavish parade for thousands of visitors.

A junior and senior queen will be chosen from candidates who will compete at Methodist Fellowship Hall Thursday night with KCEN-TVs Max Tooker as master of ceremonies. The queens and thier courts will ride in the parade downtown Saturday morning.

Over 30 entries are expected for the parade which is set to start at 10 a.m. Saturday from the First Baptist Church on Main. The parade will proceed down Main, turn left on Fannin, left on First, right on Houston, left at the Post Office, then on to Crockett.

The parade marshal, described as "very distinguished," will be a surprise for parade goers. He will be on the grandstand on the mall on Main, will be available after the parade for talk and photos, then will visit the Fete at the Mexican Fiesta Grounds that morning.

The Fete will be held at the Mexican Fiesta Grounds this year and activities will start Friday at 5 p.m. with food booths open, along with civic and service club booths.

A dance will be held Friday night in the pavilion with music by Mike Flores De Las Cameronnsitos and Texas Country. Music will start at 6:30 p.m. with the dance ending at 12:30

Grounds will open at 11 Saturday morning with food, arts and crafts, booths, live band music, entertainment, kiddie rides and games and contests allday.

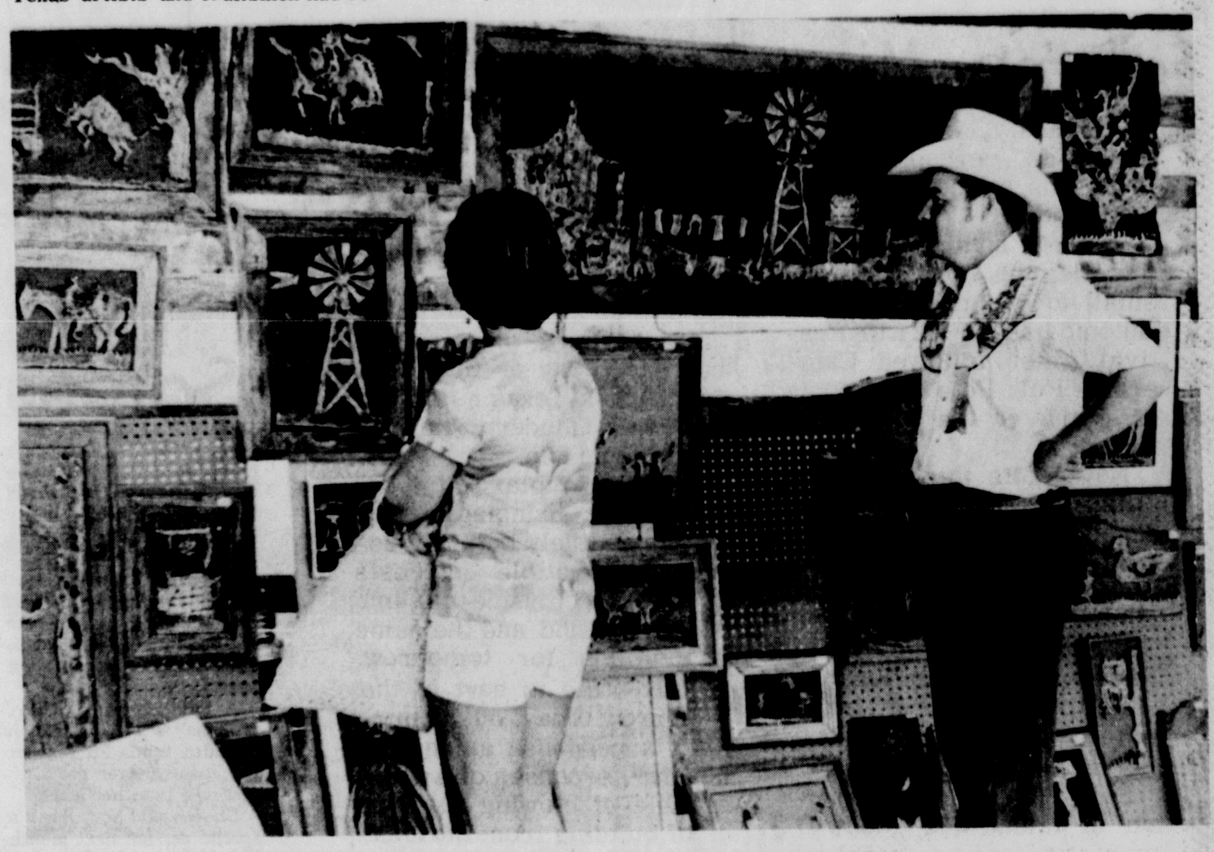
There will be folk dancing in the pavilion during the afternoon, and lots of music including Little River Ramblers, Mexican folk dancers, Irish performers, German folk dancers, Der Rhein Steins, Seaton Czech choral group and Beseda dancers, and a dance that night with the Little Fishermen

On Sunday the grounds will open at noon with arts and crafts, food, music, entertainment, and kiddie rides. Country-western music will be featured along with folk dancing and square dancing. The evening will wind up with a dance with music by Vrazel's Polka Band.

As of Tuesday morning, some 44 Texas artists and craftsmen had reserved a total of 52 booths, and new names were added to the list of those in Monday's Herald Folk Fete section.

The include: Clay Kruse, Cameron, pen and ink drawings; Mrs. Carl Welge Jr., Austin, decorated porcelain jewlery and other crafts; Don and Mary Helen Jones, San Marcos, unique wildlife pictures; Nancy Dowler, Fort Hood, macrame;

Marion and Bobbie Ward, Brownwood, horseshoe nail art, wooden signs and purses; Richard Baumgarten, Porter, woodcraft and mirrors; Jolene Manheimer, Kingsville, oil paintings; C.S. Johnson, Waco, glass blowing; and Morris Fry, San Marcos, rock jewelry.



METAL SCULPTURE by Cameron artist Maxie Morgan, right, will be among the numerous arts and crafts displayed at the Cameron Folk Fete Saturday and Sunday. Craftsmen from all over Texas have signed up for booths at the Fete and visitors should have a grand time browsing and buying unique and beautiful works of art.

Hopefuls Lining Up For Poage Post

The lines of potential canditates are forming for veteran US Rep. Bob Poage's congressional seat on the assumption he will not seek re-election, according to a story in the Waco Tribune-Herald of June 3.

Poage, operated on for a malignant tumor of the colon May 19, has stated he will serve out his present two-year term. But he is expected to announce before the end of the year he will not run again for office he has held 40 years.

State Rep. Lyndon Olson Jr. of Waco already is preparing to make an exploratory swing through the 11th Texas district.

"I'm very seriously contemplating the race," Olson said. "As soon as Cong. Poage announces he will not run, I am going to resign my House seat and take off campaigning full time."

State Rep. Dan Kubiak was quoted as saying, "I would run in a special election, although I pray that there is none, and that Congressman Poage serves out his term. There is no way I could be a candidate in a 12-months-long campaign."

Former State Sen. Murray Watson of Mart, who served 10 years in the state Senate and six in the Texas House of Representatives also is considering another candidacy for the 11th district post. He ran unsuccessfully against Poage in 1973, and got about 41 percent of the vote.

"I'm not definitely in or out," said Watson. "But I would probaaly have better name identification than any of the candidates going into the race."

Rep. Lane Denton of Waco, who was a Railroad Commission candidate in 1976, is another seasoned Central Texas politician who is keeping an eye on the developing congressional contest.

Denton notes he carried all but three counties of the district in his Railroad Commission race. He plans no announcement of his intentions until Poage makes his own plans public.

Marvin Leath, Marlin banker and former congressional aide to Poage, is still another whose name keeps cropping up among poospective candidates.

A sixth prospect is Joe Carroll of Temple, a former Bell County and district attorney.

Olson, Leath and Watson would draw conservative support, the report stated. Denton is a liberal, Kubiak a moderate with some liberal ties.

Jack Burgess, a Waco gasoline distributor, who ran as a Republican against Poage in 1976 and got nearly 43 percent of the votes in his first effort, almost certain will be the GOP nominee.

'Shirt-Sleeve' Rally Set In Rockdale

Four Central Texas legislators will be on hand for a "shirt-sleeve rally" set for Thursday (tonight) at 7 p.m. in the Rockdale VFW Hall.

The rally will be sponsored by the Rockdale Works Employee Political Action Committee (PAC), and is open to salaried employees, husbands and wives, PAC members or not, for the informal gathering.

There will be free beer, soda pop. and those attending are invited to come in shirt-sleeves and informal dress.

Visitors will hobnob with these state representatives: Lyndon Olson, Waco, chairman of the Higher Education Committee and member of Intergovernmental Affairs Committee; Bill Presnel, Bryan , chairman of Appropriations Committee; John Wilson, LaGrange, chairman Health & Welfare Committee; and Dan Kubiak, Rockdale, vice chairman Agriculture and Livestock Committee and member of Energy Resources Committee.

Subjects to be covered by the speakers include how you as an individual can be effective in good government; legislation considered during the recent session with significant impact on the business community and you personally; or anything you want to talk about.

Refreshments will be served at 7 p.m. followed by a short, informative program and question and answer period. Visitors are invited to stay after the program and get to know their legislators.

THE NEWS IN BRIEF

Water Use Curtailed

The City of Rockdale is asking people on the west side of town to cut out watering lawns except between 7 and 11 p.m. A city spokesman said there is plenty of water, but pumps cannot keep up when the demand is heavy in that section of town.

Deputy Reports Breakin

Sheriff's Deputy Thomas Harris, stationed at Rockeale, reports a breakin at the VFW Hall in Rockdale Sunday night. The burglars entered through the front door, took money from two pool tables and a juke box and carried off 62 steaks from the refrigerator Harris said he lifted several fingerprints in his investigation.

Rogers OKs Rate Hikes

The Rogers city council met Monday and approved rate increases requested by Lone Star Gas and Texas Power & Light Co. as recommended by the Railroad Commission and the Texas Public Utilities Commission. Other action included passing an ordinance increasing to 30 mph speed of trains through the city.

Vandals Wreck Fountain

Vandals struck the mall fountain in Cameron Monday night, destroying the floodlights and the fountain mechanism. Repairs were started Tuesday and police are investigating the incident.

Milam Bridge Near Maysfield To Be Replaced

AUSTIN

Bids for replacing a bridge and approaches on Farm to Market Road 485 in Milam County will be received June 22-23 by the State Department of Highways and Public Transportation.

The Harl Creek bridge, 1.4 miles southeast of Maysfield will be replaced with a modern 40-foot roadway bridge. A 22-foot structure with timber piling will be eliminated. Area motorists are advised that only one lane of traffic will be carried during construction.

Under the overall supervision of Bryan District Engineer Joe Hanover, Delton Kittrell of Hearne will be the department engineer in direct charge of the project.

Vaccination To Continue

Council Again Eyes Dog Control

A representative from the State Health Department met with Cameron city councilmen Tuesday evening and agreed that the city should continue its dog vaccination program, and promised help on a control program for strays.

Dr. Mike Taylor, who works in a 30-county area, said he will come up with suggestions for the city's control program after further checking with other cities of the same size to see what they are doing.

Mayor Lawrence Zotz said the dog vaccination project, initiated last year and carried out in some areas, will resume at the end of this month.

In other business, council heard A.W. McCullin report that more housing for the elderly is moving along, with inspection of the proposed site scheduled for this week. He also showed a rough sketch of a proposed new city hall and said FHA financing is available for the building.

Tom Anderlich, president of Texas Securities Corp. which is financing a street assessment program, reported that some adjustments have been made in costs for persons living on streets that are less than 26 feet wide.

McCullin said inspection will be made in the storm drainage system in the Green Addition to find and seal off water that is running into a ditch, so the ditch can be mowed.

Texas Power & Light Co. was granted an 11.3 percent rate increase upon the second reading of an ordinance. The company had asked for 34 percent but the Texas Public Utilities Commission set the lesser rate.

Council also:

--Voted to re-advertise for bids on selling an old spreader; re-advertise for bids on a downtown lot; discussed bids on a mosquito control machine and will ask for demonstrations before purchase; and approved purchase of right-of-way from Southern Pacific for Industrial Road at $750.

--Heard the first reading of an ordinance calling for a public hearing on annexation of more land to the city limits with the meeting set for July 5.

--Promised support to city building official Ed Bigbee in an effort to have an old filling station at Austin and 12th removed, and to fix a deadline for correction of a situation in the same neighborhood where raw sewage is running from a house to a ditch.

--Approved first reading of a highway speed ordinance as recommended by the state highway department which sets about the same speeds as are now in effect.

--Told Edward Demerson that it is not city policy to pave and curb streets in new subdivisions. Demerson said he had submitted plans for the subdivision in 1973 and cannot sell lots until the street is built. Action was tabled until the next meeting.

TRAINING SET FOR PESTICIDE APPLICATORS

Milam County producers will have an opportunity to complete a training program leading to certification as private applicators at a program scheduled for Thursday night June 9 at 7 p.m. at the Yoe High Vocational Agriculture classroom in Cameron.

Certification meetings have previously been held in Gause, Rockdale and Thorndale. Anyone is welcome to attend if you have missed this training in other areas.

The private applicator certification training program, one of the optional means of becoming certified as a private applicator of restricted-use pesticides, includes a discussion of laws, labels and labeling, pesticide safety, mixing and calibration, and pest damage identification.

The program, prepared by the Texas Agricultural Extension Service includes a review of certain questions relating to the information presented.

Those attending and qualifying as private applicators will have an opportunity to complete application for certification forms which will be forwarded to the Texas Department of Agriculture for issuance of certification.

As an alternate to participation in a training program, an individual may qualify for certification as a private applicator by submitting a completed questionaire to the Texas Department of Agriculture following a review of self-study materials. These materials may be obtained at the county Extension office.

Ceremonies To Cite Falls County Battle

Ceremonies marking a little-known battle of Texas' war for independence from Mexico will be held Sunday, June 12 at 2 p.m. with Rep. Dan Kubiak as a guest speaker.

A colorful wreath will be laid at the old cemetery at the Military Prong Battlesite, five miles from Westphalia in Falls county. The affair is being coordinated by the Falls County Historical Commission, said John Lingnau, chairman.

According to historical accounts, a group of Mexican Nationals escaped Anna's army. They were followed by took with them the payroll for Santa Anna's army. They were followed by Texas soldiers, and a battle ensued at the Falls County site.

The missing payroll money was never found, and is believed to have been buried somewhere around the battle site.

In the cemetery are eight rows of graves, with both Mexican and Texas soldiers buried there.

The ceremonies will include both Air Force and VFW color guards, and Truett Lattimer, director of the Texas Historical Commission, will be on the program. The Falls County Historical Commission is in the process of obtaining Texas and National historical markers for the cemetery.

Anyone interested in attending the ceremonies is asked to meet at the Westphalia Store at 1:30 p.m. , where the party will leave for the old cemetery.

Folk Fete.. Microcosmic Capsule...

Naturally, we welcome thousands, perhaps tens of thousands to the 8th annual Folk Fete.

There's nothing quite like the idea of Folk Fete in small-town America. San Antonio has a Folk Life Festival which followed Cameron's Folk Fete by a couple of years at the Hemisfair Grounds.

Now at its third location, Folk Fete combines the dance, the food and the music of the multi-ethnic Milam area which is unique outside of metro America. At least, Cameron is singular in recognizing this "confluence" of cultures, which at times and in places is more of a collision.

Folk Fete is a celebration of talent and goodwill among diverse peoples. And any other view is not only unMilam, unTexan, but decidedly unAmerican.

Diversity is always what makes a great function great. The Olympics celebrate the talent of athletes from more than 100 nations. All the worlds fairs acknowledge contributions of diverse, but kindred people in productivity. That is what Folk Fete is about.

It is more than a beer bust, taco fry or three-day fling. It is Texas as it really is in modern, microcosmic capsule.

It is a complex of fun and fascination, bringing together the unlikely but surprisingly compatible interests of people who share the same Milam ground and the same aspirations for tomorrow.

Folk Fete is sort of that tomorrow today, one community's response among the hopeful responses of a world capable of blowing itself up or of building from the foundations of yesterday's failures.

Folk Fete is here. It tells volumes about modern Milam County.

Lack Of Stature...

UN Ambassador Andrew Young stood at the side of Martin Luther King, Jr., the day King was assassinated in Memphis.

There, the comparison ends.

Mr. Young lacks the eloquence, the insight and overview to continue comments such as labeling former Presidents Nixon and Ford, regardless of party, as "racists."

He is qualifying such comment by saying now that Presidents Kennedy and Johnson likewise would have been "racists" in conducting policies of this country toward Africa.

This is a rarified interpretation of the black street fighter yelling "honky" at any white because he is white. It won't and shouldn't continue to fly, at least under the colors of UN ambassador for the United States.

The attitudes raised by President Carter in his aspirations for human rights are founded in the courage, the lives and dedication of the Solzhenitsyns of this world.

Mr. Young is demonstrating a lack of stature in confronting the designated or elected emissaries of the West with the random simplifications of the minority.

OLD PHILOSOPHER

Dear editor:

There's an argument going on in Congress on whether mail delivery on Saturdays should be eliminated.

The Postal Service says it could save $400 million a year by eliminating Saturday deliveries. A prominent Senator favors it, asking "Why do we seed six-day delivery? Mail I get on Saturday could very well wait until Monday."

This opens up some far-ranging possibilities. If you can wait till Monday to get Saturday's mail , why can't you wait till Tuesday, or Wednesday, or Thursday? Or one day next week? Or next month?

If the Postal Service can save 400 million dollars by eliminating Saturday delivery, it could save six times that, or $2,400,000,000 by eliminating the whole week. This would sure throw a kink in mail service, but there are some who claim it wouldn't be noticed.

By eliminating all mail delivery, the Postal Service could thus save about two and a half billion dollars a year. That's just a start in a national economy drive. For example, it now costs about a billion dollars a year to operate Congress. You get the drift.

Or take the courts. The court system in this country has never shown a profit. Neither has the highway system. I don't know of a single public school that's done it. Raising kids is one of the least profitable businesses there is . Show me a penitentiary that's paying its way. Everybody know that big cities are one of the worst investments a mass of people can make. You ever hear of a weather bureau showing a profit? A public park? Without generous tax support, how many county governments could stay in business? Or state governments?

By eliminating Saturday mail delivery and setting the domino theory of economy in action, this country could be out of debt in no time.

Yours faithfully,
J.A.

Solons Facing 'Back To Work' Session

Legislators barely got out of town before Gov. Dolph Briscoe served notice they will probably have to come back to work in mid-July.

A special session was virtually mandated by failure on closing night of the regular 140-day meeting to come to grips with the hot issued of school finance.

A $900 million "compromise" school bill, which included funds for teacher pay raises, never got a direct vote in either house.

Briscoe said he will call a special session next month if legislative leaders can show him evidence a majority of lawmakers are now ready to face up to education finance issues.

A medical malpractice bill squeezed through the session on closing night. Doctors didn't like it, but some spokesmen for Texas Medical Association conceded it was better than nothing.

In spite of failures, the legislature did manage to pass a sweeping variety of bills.

Among them:

The "Sunset Law" requiring state agencies to justify their existence periodically... Merger of three major state water agencies into a Department of Water Resources... A "natural death" act allowing terminally ill patients to specify that their lives are not to be prolonged by artificial methods... The $528 million emergency highway funding bill... Substitution of lethal drugs for the electric chair as the legal method of execution... Legalization of laetrile in cancer treatment... A no-pain speed bill banning insurance penalties for 55-70 miles an hour speeding violations.

Crime Increasing

One in five Texas adults responding to a survey said they had been victims of crimes, and one in 15 were victims of violence.

Texas Department of Public Safety released the figures as the result of a "crime trend survey" which also disclosed fear of crime is widespread.

Thirty-nine per cent of prior crime victims said they expect to be victims a second time, and 14 per cent who have escaped don't figure their luck will hold out.

The survey indicated most of the crimes involved property offenses, while violence declined slightly.

Amendments on Ballot

Half a dozen proposed constitutional amendments will be on the ballot next November and nine more in 1978.

To be voted on this year are amendments to allow judges to deny bail to repeat felons, permit tax relief for historic buildings and sites, enlarge the Court of Criminal Appeals, permit use of electronic banking systems, expand Judicial Qualifications Commission powers and authorize another $200 million to finance low-interest veterans land loans.

Courts Speak

Texas Court of Criminal Appeals up-held the death penalty assessed a Fort Worth man in the 1975 murder of a grocery clerk.

At the same time, a Corpus Christi man sentenced to life in prison for murder got a new trial because jurors were not informed on circumstantial evidence laws.

The high court directed a new trial in a Harris County workmen's compensation case where a lawyer compared the suit to famous state scandals.

Third Court of Civil Appeals upheld a district court finding that The University of Texas student newspaper should be allowed to endorse political candidates.

A teen-aged girl convicted of burglary won a new trial after lying about her age at the time of the original trial.

AG Opinions

The Department of Public Welfare may require counties to collect a $20 application fee from non-welfare recipients for child support services, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

Hospital district records at least five years old can be destroyed after they have been duplicated and notice given the state librarian.

Deputy sheriffs may be appointed to patrol an annual celebration only if they meet requirements as peace officers.

The legislature cannot delegate its power to establish maximum loan interests rates to an administrative agency.

Short Snorts

Value of Texas construction authorizations declined during April from the record level of March.

Sen. Don Adams of Jasper is new president pro tempore of the Texas Senate.

Dr. George G. Killinger succeeds Paul F. Cromwell Jr. on the State Board of Pardons and Paroles July 1.

Comptroller Bob Bullock reminded religious and other non-profit, tax-exempt organizations they can hold one sale or auction annually without having to collect sales taxes. A new law allowing the exemption became effective May 24.

Judge Thomas H. Rout of Houston was named by Gov. Dolph Briscoe as judge of the 208th district court of Harris County.

R. Kenneth Towery, University of Texas assistant to the chancellor, has rejoined U.S. Sen. John Tower's staff as state executive director.

Texas crude oil production totaled 95.3 million barrels in March, down from 99 million in March 1976, the Railroad Commission reported. March allowable was 113.7 million barrels.

State senators voted themselves $4,900 a month to hire staff members between legislative sessions.

FB Head Warns Of Wheat Crisis

With wheat harvest just getting under way, the president of the Texas Farm Bureau said a crisis may be developing over storing this year's crop.

"Our problem is we've already got almost a year's crop in storage and we're expecting goot to bumper crops in the winterwheat area from Texas to Nebraska," said Carrol Chaloupka, Dalhart grain and cattle producer.

"What we fear," he said "is that a shortage of storage will depress our prices even more." He said that wheat prices have been falling steadily since last year, and that wheat is now selling for about 40 percent below what it was last June.

"If the situation reaches crisis proportions, we will ask that the U.S. Department of Agriculture approve loans on what stored in temporary facilities, even on the ground," Chaloupka said. "We believe this may be necessary to keep the bottom from falling completely out of the wheat market."

Chaloupka said he has coferred with Deputy Secretary of Agriculture John C. White about the storage situation. He said White assured nim USDA is aware of the problem and is working to solve it.

Grain Warehouse Bill Restores Public Confidence in Industry

AUSTIN–"The new Grain Warehouse Act is good for operators, good for the Texas Department of Agriculture (TDA) as the regulatory agency, and good for Texas producers," Agriculture Commissioner Reagan V. Brown told members of the grain elevator industry recently.

Brown said he felt the new legislation would "restore the public's faith in the warehouse industry" after widespread adverse publicity over grain fraud cases this year.

"That one rotton apple has always had the ability to make the whole barrel stink," he said, telling the group is was to their credit that they were involved in the initial planning of the legislation. Members of the agricultural banking community, TDA, and the Texas Grain and Feed Association worked on provisions included in the bill.

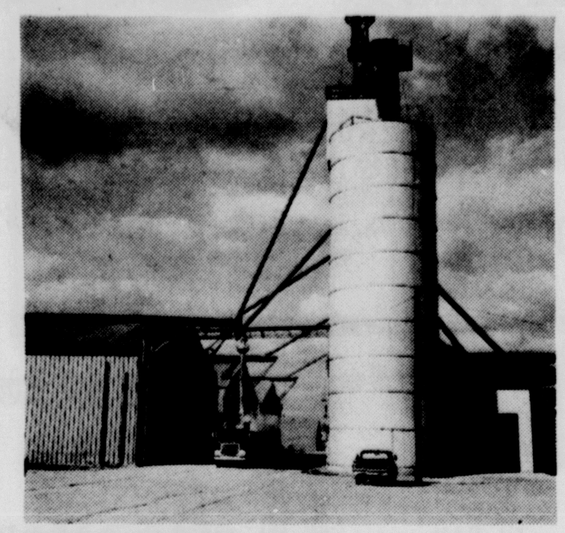
"The increased bonding provisions will work to your favor," he pointed out, "by increasing your lending value at the bank."

Brown also applauded the measure's strict requirement for numbered grain receipts and scale tickets which will enable more accurate record keeping by TDA.

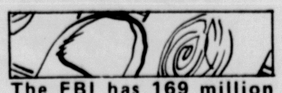
"This facet of the bill will tighten up accounting procedures for determining grain deposited in the warehouse," Brown said. Warehousemen will be required to use serially numbered scale tickets and maintain them in numerical order to facilitate auditing by TDA.

Brown credited the efforts of producers and warehousemen in moving grain out of storage into markets. "Over 140 million bushels a year pass through the facilities in Corpus Christi alone," he pointed out.

"Even though grain production in the state will be down this year, we will still be harvesting around 286 million bushels of grain sorghum and over 100 million bushels of wheat."



MOVING GRAIN--Despite drops in grain production this year, the Texas Department of Agriculture is expecting around 286 million bushels of grain sorghum and over 100 million bushels of wheat to be moving through storage facilities in the state this year.



The FBI has 169 million fingerprints on file—no two of which are exactly alike.

Billion Dollar Cotton Crop Is Reported

AUSTIN--Cotton production during 1976 totaled over $1 billion, just under the record set in 1973, Agriculture Commissioner Reagan V. Brown has announced.

Total value of last year's crop was 84 per cent over the 1975 crop, according to the Texas Crop and Livestock Reporting Service. A total of 3,307,000 bales were produced last year.

"All indications point toward an even bigger crop in the state this year," Brown said. "There is little indication so far that foreign demand will lessen and prices should remain good, despite the increased acreage."

The average price per pound of lint in 1976 for Texas upland cotton was 62.4 cents, over a third higher than 1975. American Pima sold for an average of $1.18 a pound. Cottonseed prices moved up to $99 a ton, above the $89.80-mark set the previous year.

Upland cotton lint brought $990,513,000; American Pima, $4,191,000 and cotton seed $127,314,000.

The U.S. and Italy produce about half of the world's crop of peaches.

Farmers Union President Warns Cattle Producers

On the eve of producer registration for a vote on the proposed Beef Market Development Plan, Texas Farmers Union President Jay Naman warns cattle producers to "be sure you know who it is that wants to control your $40 million, why they want it, and what they intend to do with it."

Speaking in behalf of the state-wode general farm organization Naman claims the Beef Research and Information Act "is vague and unspecific in assuring that it will be controlled by those who pay the tab. The only sure thing is that producers themselves will in no way be able to speak out or vote on anyting. Special interest groups deemed 'qualified' by the Secretary of Agriculture will control all the decisions, and one of them in each state stands to get a 10 percent kickback. In Texas, that means some group is in line for around $600,000."

Naman noted there has not been enough talk about opposition to the plan, mostly due to general apathy among beef prodncers. "But if each producer doesn't take the time to register and vote no," says Naman, "everyone who owns even one head will find himself in the position of bookkeeper/collector for a Beef Board which could be spending millions of dollars without considering the producer."

Registration is set up June 6-17 through the local ASCS office. Certified producers will then vote July 5-15.

"The Texas Farmers Union is certainly in favor of self-help programs so that producers can promote and research their commodities. We just want to besure that the program doesn't become a wasteful boondoggle that only helps the advertising and travel-tour industry. Democratic representation is totally absent from this legislation."

Naman concluded by once again urging producers to register and voter"NO", calling the government-enforced check-off a "mandatory rip-off that the cattle industry does'nt need."

Pesticide Use Certificates Out Soon, Ag Official Says

AUSTIN–Texas farmers who have been waiting for private applicator restricted-use pesticide certificates, being issued by the Texas Department of Agriculture, need not worry that they've been overlooked," Commissioner Reagan V. Brown has assured.

"Recent production problems have caused a delay in getting the certificates from the printers and some people have understandably registered concern about their certificates," Brown explained.

"By June 1, however, we should be able to start mailing out the certificates so that if you haven't received yours yet, don't worry," he added.

Certificates will be mailed to those private applicators who have successfully completed training required by national legislation. Under the provisions of the federal law, after Oct. 21, 1977, a license will be required for purchasing and using restricted pesticides to be identified by the Environmental Protection Agency (EPA).

By the October deadline, the EPA plans to have categorized pesticide ingredients for either restricted or non-restricted use.

Picnic foods such as fried chicken, roast beef, or baked ham, as well as potato salad, deviled eggs or cole slaw should be avoided if there is no way of keeping them very hot or cold. It might become unsafe to eat any of these within three hours due to bacterial growth, according to Agriculture Commissioner Reagan V. Brown.

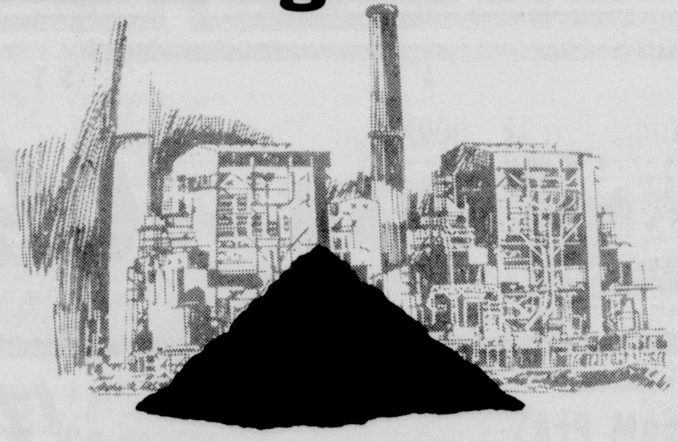
This is lignite coal...



It saved TP&L customers more than $81 million last year.

HERE'S HOW For many years, natural gas was the only fuel used to produce electricity at Texas Power & Light Company generating plants. It was plentiful and cheap. But, in recent years uncertain supplies and drastically rising costs of gas have focused attention on readily available, lower-cost lignite coal.

In the late 1960's, TP&L and two affiliated Texas electric companies began a massive program to reduce their dependency on gas by constructing plants to use lignite. The first plant was placed in operation in 1971 and another in 1974. Others are under construction and being planned.

During 1976, nearly one-third of the electric power which TP&L supplied to its customers was produced at lignite-fueled plants and resulted in customer savings of more than $81 million.

The price of electricity must continue to go up, however, because of the high cost of building new plants and other effects of inflation. But, as TP&L generates more and more electricity with lignite coal, the increase in price will be many millions of dollars less than if that electricity were generated with natural gas.

Art Affair At Summer Festival In Waco

On Saturday, June 11, The Art Center in Waco will be the scene of a summer festrival of art activities for all ages. The event is planned to mark the opening of the Center's summer program and the beginning of classes on June 14.

From 10 a.m. to 5 p.m. visitors to the Center will find creative projects for the entire family in every corner of the early 20th century Mediterranean villa that is now the Center's permanent home. Art Center instructors, local artists, and many volunteers will be available to assist visitors with esperimentations in a wide variety of media.

Activities are planned for family participation, however, a special area of activities is planned for preschool children. Otherwise, children, parents, and grandparents can work together on weaving, wood construction, print making, tie dying, silk screening, swirl painting, rock painting, collage, watercolor painting, rope and yarn sculpture, life drawing, and poster design.

Admission to the event is $2 for adults and $1 for children under 12. Purchase of the entrance ticket entitles participation in each activity.

The Art Center Associates, a recently organized volunteer organization, will be selling hot dogs, tacos, pop corn, etc., in the courtyard.

PERSONAL MENTION

Rogers

Mr. and Mrs. Anton J. Klecka of Rogers celebrated their 50th wedding anniversary Sunday, June 5 at the Rogers Community Center.

Hosts for this special occasion were their children, Mr. and Mrs. Johnnie Klecka of Rogers and Mr. and Mrs. Anton F. Klecka of Temple.

Cake, cookies, coffee and punch were served from a lace covered table with crystal appointments at the informal reception.

Miss Karen Klecka of Temple, granddaughter of the couple, registered guests.

Following the reception a bar-b-que buffet dinner was served at the couple's home.

Over 50 friends and relatives visited with the couple.

The Spanish explorers in the New World thought smoking tobacco a headache remedy.

Summer Reading Club To Be Held At Library

Young readers at Cameron Public Library will be among more than 100,000 young Texans who will be taking a "Jungle Journey" this summer as participants in the Summer ReadingClub. Sponsored jointly by the local library and the Texas State Library, the Reading Club encourages readers to use the recreational and informational materials they can find at their local library.

Posters, reading logs, and book marks this year feature jungle animals. Each participant will recieve a reading log on which to record what he or she has read. In addition to the list of books each reader compiles, the log includes a pair of word puzzles and a maze.

Summer is always the busiest time of the year for children's collectons in public libraries. Whether summer reading is entirely for entertainment or is also for information, it's different from the required reading that students must do durig the school year. At the same time, however, it builds valuable reading skills.

During the summer many libraries will also be planning special activities, including films, puppet shows, and other programs.

Good judgment is the password to good driving.

Shower Fetes Mrs. Alexander

Mrs. Dub Alexander, the former Miss Sue Ann Kennedy was honored with a miscellaneous shower in the home of Mrs. A.C. Mitchan.

Hostesses for this occasion were Laura Mitchan, Cindy Mitchan and Debbie Bauer.

The bride's chosen colors of blue and green were carried out in the decorations.

Special guest was Mrs. Doris Kennedy, the honoree's mother.

Conserving Time

Conserving time is a major concern of today's busy homemakers. One way to keep house cleaning simple is to do little jobs more often.

Food spills on the stove and counter tops, for example, can be cleaned more simply if you grab a sponge and wipe them right away. Once a spill has hardened, it often takes real muscle to get rid of it. Baked on foods and dirty cooking utensils, when soaked immediately, also become a cinch to clean up later.

An easy way to keep your carpet looking great all the time is to clean it two or three times a year. This prevents grease from the air and tracked in dirt from dulling the colors.

Finally, don't accumulate things around the house. Get rid of old magazines and newspapers and store those items you rarely use.

AAA Urges Motorists Caution

The most unpredictable pedestrians are children, and their hours on the sidewalk and in the stree are multiplying as schools close their doors for the summer months.

That reminder comes from the Texas Division of the American Automobile Association, which is urging motorists in the state to be extra alert behind the wheel.

While it's true that youngsters are normally less wary of traffic conditions than adults, their high spirits during vacation time make them even more vulnerable to mishaps -- mishaps than can occur in a split second as junior citizens scurry from behind parked cars to retrieve a ball, dart across streets in pursuit of adventure, or--worse--play games in or near streets.

There are three areas in particular, AAA notes, where motorists will encounter children during summer -- recreational areas (playgrounds, pools, tennis courts); urban residential areas, where a lack of such facilities prompts youngsters to play near streets; and suburban residential areas, where curves and driveways often create blind spots for drivers.

Drivers also should be especially cautious from 11:30 a.m. to 2 p.m., when children are entering and leaving play areas during lunch periods, and from 6 p.m. to 9 p.m. when dusk affects vision.

AAA urges parents to instruct their children in pedestrian safety emphasizing the importance of playing only in supervised areas.

Telethon To Feature Anita

Anita Bryant will be among the featured artists on "The 700 Club Telethon" coming live by satellite to cable television systems across the state. It will be seen on all cable TV systems carying KXTX-TV, Channel 39 Dallas, KHTV, Channel 39 Houston and KFDA-TV, Chalnel 11 Amarillo on Friday, Saturday and Sunday, June 10, 11 and 12.

The telethon is being run to keep "The 700 Club" crisis counseling ministry and its associated television and radio program alive in this part of the state.

Cathie Taylor of Housetop records, Chico Holiday, Britain's Andrew Culverwell and Roger Wiles will be among the featured artists on the telethon, which is being transmitted live by satellite to television and radio stations and cable TV systems across America. Christian Broadcasting Network president Pat Robertson will share hosting duties with Ken Kinchlow and John Gliman.

During the past year, more than one million calls for help have poured in the the 700 Club counseling offices in more than 50 major Metropolitan areas of the United States and overseas. The calls covered almost every conceivable kind of problem ranging from distraught people contemplating suicide to school children worried over grades or a lost puppy. Every caller was prayed for by nearly eight thousand volunteers in the U.S. and overseas.

The 700 Club program which the telethon supports has won the endorsement of priests and ministers from many faiths for its timely interviews, up-tempo family entertainment, and crisis-counseling aspects. Last year, the network won the Distinguished Merit Citation from the National Conference of Christians and Jews for promoting a spirit of brother hood among the faiths.

The telethon is the only major fund-raising event of th year, and will affect cities as diverse as Charlotte, N.C., Washington, D.C., and Honolulu, Hawaii.

'Wonder Woman' Will Spark Opening Of New Dolphin Show

Lynda Carter, star of the television series "Wonder Woman" will be the featured hostess of the grand opening ceremonies of Astroworld's newest attraction, Aqua Frolics, a water-filled revue of the theme park's new 1300-seat Aqua Rena, Saturday, June 11.

The former Miss World USA (1973) whose new weekly "Wonder Woman" series is scheduled for CBS-TV this fall, will make a special trip to Houston for the dedication of the new dolphin theater.

The two trained dolphins making their aquatic debut at Astroworld have just completed an intensive training period in Liberty, North Carolina. Their precision performances include synchronized leaps through hoops, aerial acrobatics, tail walks, and even playing basketball.

Astroworld's new dolphin act is the first show of its kind to be seen in Houston. Hourly shows created by these intelligent, sensitive mammals highlight Astroworld's extensive line-up of new shows and attraction, including high diving and water ski shows plus fireworks spectaculars throughout the summer months.

Astroworld's daily summer season began Memorial weekend.

Kids and Calves

Little Moo should grow up into a fine milk cow. She has good blood lines. Her future reasonable human attention can assure.

Bobby's tomorrow — that's another question. Excellent blood lines, of course. Attention will be more than reasonable. Bobby is loved!

But a kid's future isn't fashioned in the meadow or barn. Not even in the home and school.

Ideas and ideals will mold Bobby's tomorrow. Convictions and principles will shape his character. These can be exemplified at home and practiced at school. But they're taught best and developed most surely in the educational and youth programs of the Church.

Make next Sunday the threshold of a bright tomorrow for your son or daughter.

Darnell Nabs Texas 500

Taking his lead in the 167th lap, 46 year old Bay Darnell drove his way to victory in the fifth annual Texas 500 held at Texas World Speedway Sunday.

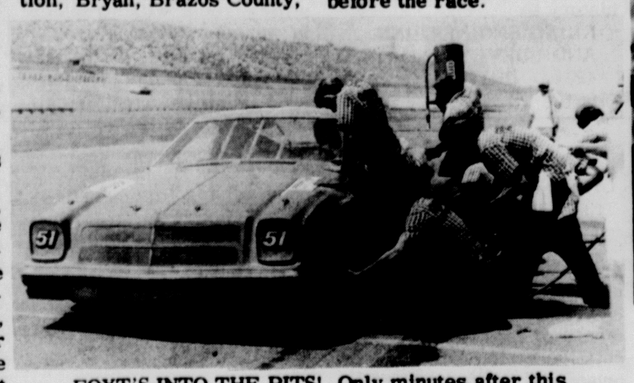
Darnell, a native of Deerfield Ill. and owner of a Chicago trucking firm netted his third career victory, having been involved in auto racing for 14 years. Darnell took the race by a six lap margin, while his closest competitor was Paul Feldner of Richfield, Wisconsin, driving his way to a second place title. Gordon Blankenship of Keokuk , Iowa and Sal Tovella of Addison, Ill. took third and fourth respectivley.

Two Wacoans made their first appearances on a super speedway Sunday, Keith Green managed to keep his car in the running throughout the race, finishing ninth, completing 226 laps of the 250 lap race on the two-mile high banked oval. Joe Sturdivant, owner of Sturdivant transmission in Waco, finished 19th in the 33 car field after leaving the race in the 143rd lap. Sturdivant hit the wall entering turn three, spun to hit the wall again then sputtered into the pits to call it a day. Sturdivant did finish the three hour and 40 minute race ahead of three time Indianapolis winner A.J. Foyt, who hit the wall on the 128th lap, breaking a stabilizer bar and preventing the car from further fueling, eleminating the Living Legend from completing the race on A.J. Foyt Race Day at Texas World Speedway.

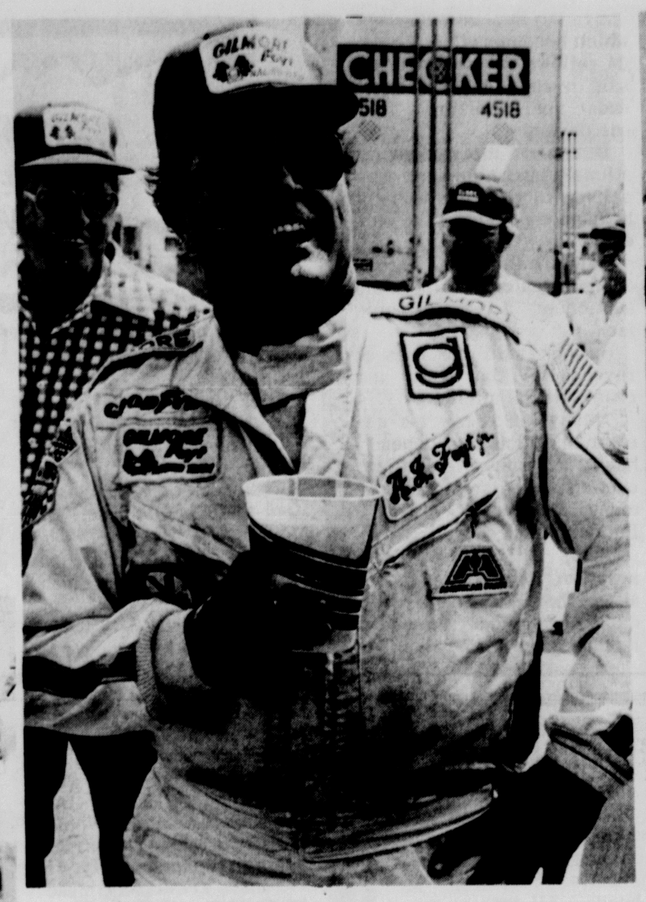
Foyt, the Texas 500 defending champion and the only person to win four Indy crowns, was honored by dignitaries from College Station, Bryan, Brazos County, His hometown Houston, the State of Texas and by the Nation in a telegram from President Jimmy Carter.

Foyt was the pacesetter for the opening 250 miles, ignoring challenges from Ed and Darnell, opening his lead to a full one lap, before his mishaps sent him to the pits.

Negre managed the lead for one lap and Roger McCluskey jumped to first place after a three lap caution but until he slammed into the wall, the "Living Legend" A.J. Foyt was living up to every word spoken of him before the race.



FOYT'S INTO THE PITS! Only minutes after this pit stop Foyt was forced from the race after a broken stablizer bar caused him to hit the wall in the third turn of the 2 mile oval. Mike Peck photo



FOUR TIME Indy 500 winner and defending champion of the Texas 500 A.J. Foyt led the 500 mile affair for the first 250 miles, but a broken stabalizer bar sent Foyt to the pits earlier than expected. Foyt was honored before the race by many noted dignitaries, including a telegram from President Jimmy Carter praising Foyt as the world's greatest race driver.....the "Living Legend". Mike Peck photo.

A PROUD WINNER, Bay Darnell of Deerfield Illinois is all smiles after completing the fifth annual Texas 500 a full three laps ahead of his closest competitor. Pictured with Darnell is Miss Texas World Speedway Yolanda de los Santos. Mike Peck photo.

Fishing License Fees To Increase Sept. 1

Recent action by the 65th Texas Legislature increases sport fishing license fees for both residents and nonresidents and makes those licenses purchased after June 1, 1977, valid through Aug. 31, 1978.

Those bought prior to June 1 will expire one year from date of purchase.

As of Sept. 1, 1977, fees for resident sportfishing licenses will go up from $4.25 to $4.50, and those for nonresidents will increase to $10.50.

Now, both fishing, hunting and the combination fishing and hunting licenses will be valid from Sept. 1 of one year through Aug. 31 of the following year.

License sales officials at at the TexasParks and Wildlife Department say anyone who buys a fishing license in June 1977 will be allowed to fish for 15 months at the old price of $4.25.

Sales of fishing licenses have lagged during the past two years, possibly because of the one-year-date-ofpurchase regulation.

In many instances, according to P&WD game wardens, fishermen buy a license and without thinking consider it valid until the end of August, when actually it was valid for a year from date of purchase.

TP&W Records Show More Males Drowned In 76

During 1976 in Texas the ratio of male to female drownings was more than six to one, according to figures kept by water wafety officials at the Texas Parks and Wildlife Department.

Of the 503 drownings recorded by the P&WD for that year, 436 were male and only 67 were female.

The trend starts early. Sixty children less than five years of age drowned--41 boys and 19 girls. Between the ages of six and 10, 38 boys and five girls died in water mishaps.

More people between 15 and 20 drown than at any other age. In 1976 133 such victims were males. One of the two girls in that age group who drowned died in a bathtub, the other in a vehicle accident.

A total of 52 deaths was recorded among persons over 50 years of age -- 40 males and 12 females.

Baseball Roundup

CAMERON CARDINALS

In a Sunday game played at Holland with the Salado Pirates the Cameron Cardinals came up on top 11-0.

Kenneth Scott pitched a one-hit shutout in that game.

The Cards will travel to Rockdale Sunday to meet the Lobos there in a double header.

PANAMA REDS

The Belton Eagles took two from the Reds in a game at Colonial Field Sunday.

In the first game the Eagles defeated the Reds by a score of 18-2. Winning pitcher was Al Lopez.

Score for th second game was Eagles, 8, Reds 7. Tony Mendoza was the winning pitcher.

The Reds will be idle Sunday.

Pageant Opens At Palo Duro

The majestic canyon of Palo Duro once again this summer will be electrified with sound and color, when the musical drama, "Texas," reopens June 15 in the outdoor Pioneer Amphitheatre in the Panhandle state park.

It will be the 12th season for the much acclaimed pageant, written by Paul Green which brings to vivid life the history of this Texas region. It is produced by the Texas Panhandle Heritage Foundation in cooperation with West Texas State University and the Parks and Wildlife Department.

The company of some 80 actors and singers, many of them university students, depicts the hardships of the settlers, exploits and battles of Indians and cowboys, and the changing effects of politics and business. Nature itself is part of the production, in the spectacular setting and in lifelike simulations of prairie fires and crashing storms.

Advance reservations are recommended for the drama, which will run through August 20, Monday through Saturday nights, with one Sunday performance July 3. A barbecue dinner is served from 6:30 to 8 p.m. before show time at 8:30 p.m.

Prices are: Adults, $3, $3.50 and $5; children under 12, $1.50, $1.75, and $5, on Fridays Saturdays and Sunday. For Mondays through Thursdays, prices are: Adults, $2.50, $3 and $4.50; children under 12, $1.25, $1.50 and $4.50. Ticket orders should be addressed to: "TEXAS," Box 268, Canyon, Texas 79015 or phone (806) 655-2182.

Other attractions at Palo Duro Canyon State Park include camping and picnicking, for which there are modern facilities; hiking, horseback riding, scenic drives, a trading post and a miniature train ride.

An interpretive center at the canyon rim has exhibits with geological, archeological and historical facts pertaining to the canyon.

County Gets Paid For Voter Signup

Milam County received a check for $484.40 from the state comptroller last week as payment for issuing and processing voter registration certificates from Feb. 1, 1976 - Jan. 31, 1977.

Counties are paid 40 cents by the state for each certificate issued or canceled.

Tax-Exempt Sales OK For Some

Comptroller Bob Bullock Wednesday reminded religious and other non-pfofit, tax-exempt organizations they don't have to collect sales taxes.

The special one-a-year, tax-free sales were authorized by the Texas Legislature and apply to tax- exempt relifious, educational, charitable and eleemosynary organizations.

The legislation had the support of the Comptroller's Office.

Bullock said the new law, which becomes effective May 24, allows only one tax-free sale or auction during a calendar year and limits it to one day only.

If two or more organizations jointly hold a tax-free sale or auction, neither may hold another during the calendar year, he said.

The bill allows the sponsoring organization to pay the auctioneer a "reasonable fee."

Bullock said the loss of revenue to the state and cities will be minimal.

"Many of these tax-exempt organizations depend hevily on annual sales or auctions to raise money for many worthwhile projects," Bullock noted.

"This will do away with a lot of the red tape, and allow them to put a little more of the money they collect to good use," he said.

Community Cleanup Can Mean Cash

Improving the appearance of your community may pay cash dividends, The community resource development staff of the Texas Agricultural Extension Service may be able to show your community how to receive cash for a community cleanup project.

"With the increased interest in fuel conservation and recycling, community sponsored removal of junk cars has paid cash dividends to many rural areas," points out Tim Shaunty, Extension area resource development specialist. "Depending on the location, some towns or clubs have received $35 per car."

Shaunty suggests that anyone interested in participating in a program of junk car removal for profit or any other clean up project should contact the local county Extension office for assistance with the legal requirements, ordinances and collection procedures.

"Not only will such a project help make the community a better place in which to live, but it can also lead to some income to support certain community activities," adds the specialist.

Vermont was an independent republic before it became a state.

Moving can be very troublesome. Especially when you're off to settle the wilderness.

The roads were terrible. No restaurants along the way. Why, the trip itself took months.

But, if you were willing, the government would give you land. Land that was bought and paid for with money raised from Americans taking stock in their country.

So thousands had a little hand in every homestead.

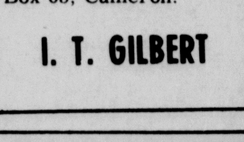
Today, millions of Americans are still taking stock in their country by buying U.S. Savings Bonds.

Because whether you purchase Bonds through the Payroll Savings Plan at work, or through the Bond-A-Month Plan where you save, you're putting your money where it counts the most. For you and for your country.

So buy U.S. Savings Bonds.

They'll put your savings on the right road.

Now E Bonds pay 6% interest when held to maturity of 5 years (4½% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.



Take stock in America.
